

'Cuthbert' speaks out of the mists of a distant age. As a monk and hermit living on the Island of Farne, Cuthbert is one of England's greatest Christian Saints. Living alone in simplicity, he pursues the Ineffable Light of God. But can he overcome the evil one who seeks to hold him back?

This epic new short film, shot over two days and edited over four months has been inspired by Saint Cuthbert's mystical story. It aims to depict the orthodox Christian vision afresh, touching upon the battles we all still face today.
